### Summary

This week I didn't do many works. In the first days of this week, I made a prepare for my presentation and help Lujunhua for his work. But in fact, the result isn't well. However I did learn many things about how to make a good presentation. Like a clear framework, many pictures, brief introduction.

Then I gone to Beijing for the communication. From this communication, I learned many, and have a change.

### To do List

Next week, I wil join in the Global Visualization. And I 'll still do these works of Lu Junhua.
